Agreed total price (AUD) _____

Included revision rounds _____

50% deposit (AUD) _____

Remaining balance (AUD) _____

Confirmed formats / variations _____

Third-party assets / licence costs _____

1. Agreed scope and revision allowance

The selected package, agreed price, included revision rounds and actual deliverables are recorded on page 1. The Premium package does not promise a particular concept count or additional format unless confirmed in writing. A revision round is one consolidated list of reasonable changes to the existing logo, such as colours, fonts, layout or sizing.

2. Additional work

Extra revision rounds cost \$15-\$30 AUD each. The exact price and scope must be quoted and approved in writing by the client before additional work starts. New concepts, major redesigns and work outside the included allowance may incur separately quoted charges; client approval is required before proceeding.

3. Payment and delivery

A 50% deposit of the agreed price is due before logo design begins. The remaining balance and any approved additional charges are due in full before final files are handed over. Preview files are for review only. The final deliverables and any third-party licence costs must be confirmed in writing; no additional formats are implied.

Copyright, permissions & acceptance

Read with the project details and agreed scope on page 1.

4. Conditional copyright transfer

On receipt of full payment, WebsitesNMore assigns to the client only the copyright it owns and can legally assign in the agreed final design, excluding unused concepts, working files, tools and third-party materials. The parties' signatures record this conditional assignment. Where no assignable copyright exists, no ownership is transferred. Exclusive copyright ownership, uniqueness and trademark registrability are not guaranteed. Any applicable moral rights remain subject to law.

5. Third-party assets and design tools

Fonts, stock elements, icons, templates and other third-party assets remain owned by their respective owners and subject to their licences. Any use of third-party or AI-generated material, relevant licence restrictions and any required licence costs must be disclosed to and approved by the client before inclusion in the final design. AI-generated elements may have limited or no copyright protection and may not be exclusive. The client does not acquire ownership of third-party assets or font software.

6. Client materials and final approval

The client confirms they have permission to use any supplied business names, text, images or assets. The client reviews spelling, appearance and intended use before approving the final design. Editable vector/source files and extra formats are provided only if expressly listed as available and included in the agreed deliverables. No trademark search or legal clearance is included; the client may obtain independent advice.

7. Acceptance

Both parties accept the recorded scope, price, revision allowance and these terms. Changes to scope or charges must be agreed in writing. This agreement does not exclude rights or remedies that cannot lawfully be excluded under Australian Consumer Law. It is a general agreement template, not legal advice; obtain legal review where needed.
